

we're all alone

My eyes are open but still I cannot see
A few words are spoken they go right over me
Time was I'd listen and not too long ago
Nowadays I'm missing I've heard it all before
It's no fun it's no joke it's no fun we're all alone
My mind is calling to be another place
The fear of falling shows upon my face
The empty gestures that once made me decide
Are now opinions that I have laid aside
It's no fun it's no joke it's no fun we're all alone

i'm the one

Say what you wanna do tonight
I'm waiting for your reply
Say what you wanna see tonight
I'm not going anywhere else tonight
Tell me what you wanna see tonight
I'm waiting to see the signs
Don't know what you're looking for tonight
But I'm not going anywhere else tonight
I'm the one who always sits around
I'm the one who's never there
I'm the one who never gets around
I'm the one who never dares
Be what you wanna be tonight
All slicked up to the nines
Say what you wanna do tonight
'Cos I'm not going anywhere else tonight
And I'm going out tonight

call out the army

What you gonna do when the spaceman lands?
What you gonna do when he takes your hand?
What you gonna say when he asks of you
Are you friend or foe what you gonna do?
Will you greet him with open arms?
Or will you run away and sound the alarm?
Will you greet him with open arms?
Or call out the army?
What you gonna do with your neighbours new?
What you gonna do when they're not like you
What you gonna say about the way they play
And their colour too what you gonna do?
Will you greet him with open arms?
Or will you run away and sound the alarm?
Will you greet him with open arms?
Or call out the army?

inside

I feel something in my mind tells me love can be unkind
Nothing that I do will ever get away from you
I hear your voice coming through calling me to think of you
When you think you're on your own strange feelings grow
When you think you're on your own strange feelings grow inside...
I know there's nothing I can do only thinking of you
It's the same thing everyday I know there's nothing I can say
I hear your voice coming through calling me to think of you and it hurts me...
When you think you're on your own strange feelings grow
When you think you're on your own strange feelings grow inside...

he left the nest

He hid his feelings to him it was an ordinary game
She'd never bother she said that there was only him to blame
And when it came to trying to find someone who'd really care
He didn't know who and wondered if he'd ever really dare to leave the nest
She had her secrets and carefully she kept them to herself
She'd let him know soon that all along there had been someone else
But when it came to she couldn't find the words to tell him why
He didn't know who and suddenly regretted all his lies
He'd try his best she'd tried her best he left the nest
We hide our feelings and each would try to give the other blame
And when it comes to trying to find someone who really cares
We never know who and wonder if we ever really dare to leave the nest

if all else fails

Driving alone in the rain somebody said a long hot summer
Many's the time I remember you just an echo...
Driving away from the last place a name remembered a face forgotten
How often I remember you just an echo, just an echo...
If all else fails, if all else fails how can I tell you?
Checking the time I'll arrive I don't remember what time I told her
All I know is I remember you just an echo...
Looking out for the sign think to myself are you the same now
Just how I remember you just an echo just an echo...
If all else fails, if all else fails how can I tell you?

my black mirror

On the run your shoes need soling and the lights down the hill are going out
Near the frontier accepting kindnesses from strangers as you while away the hours
Think about me when you're running sun beating down
Think about tomorrow you're escaping no turning back, no turning back...
Dare you look, dare you look, dare you look into my black mirror?
You cross the line you have no idea of the time but you know it's getting dark
Too dark to see your eyes see nothing if you're afraid you won't get far
Think about me when you need to keep me in mind
Think about the things they told you no turning back no turning back...
Dare you look, dare you look, dare you look into my black mirror?

the stranger

Standing with the stranger
Tell me what you know
Show me your intentions
No one has to know
He said "Out in the night under the lights
Nothing ever hurts me
Out after dark I catch a spark
Nothing ever hurts me"
Money in my pocket
Funny was the choice
Talking to the stranger
Empty was his voice
He said "Out in the night under the lights
Nothing ever hurts me
Out after dark I catch a spark
Nothing ever hurts me"

hero

I promised you more in the early days when I was afraid of the dark
Happily walking with somebody else... a fool!
I opened the door another one shut a shot in the dark sang out
The bell in the tower rang the song of a fool
Hero? I'm this week's hero of the hour!
You come to believe in a better life when all around you go on
Happily talking and singing the songs of a fool
But I can do more than those early days now I'm not afraid of the dark
Nothing I do is construed as the act of a fool
Hero? I'm this week's hero of the hour!
So facing the future I see myself mirrored and more than I was
A change in style a hand in the glove of fame
A knock on the door of recognition smiling they greet me now
Nobody knowing that I sang the songs of a fool
Hero? I'm this week's hero of the hour!

the night

The blade of love cuts deeper now
The latest flame has let you down
Here in the night...
The ways and means the 'need-you-now's
The tears in which your laughter drowns
Here in the night...
I know this won't mean much to you...
Listen to a lonely sound
Find a face amongst the crowd
Here in the night...
I know this won't mean much won't mean much to you

25 minutes

I gave you all I had
I gave all I could borrow
If I traded in my heart could I buy it back tomorrow?
You said I'm not the one for my information
You say I'm not the one, I'm not the one
25 minutes was all I needed...
It didn't take long to learn
We both knew what we were after
It didn't take long to turn the tears into laughter...
You said I'm not the one for my information
You say I'm not the one, I'm not the one
25 minutes was all I needed...

i don't know how

You saved my life once before never wanted my thanks
Now your back's against the wall expecting me to break your fall, your fall
I paid the price once before never knowing myself
Now a crack's ran up the wall and soon this house of cards will fall, will fall
Watching and waiting with a smile I've been saving
All I am saying is listen to me now
How can I be what you want me to be?
When I can't feel or see 'cos I don't know how...
I don't know how
You saved my life once before never wanted my thanks
Now your back's against the wall expecting me to break your fall, your fall
Watching and waiting with a smile I've been saving
All I am saying is listen to me now
How can I be what you want me to be?
When I can't feel or see 'cos I don't know how...
I don't know how...

real world

Memories made in a different room
Echoes of laughter in the silence
All bringing a different gift for you
Voices in a different song in a different key
Like a touch a finger to my lips
All singing a different tune for you
In the real world tell me everything you've seen
In the real world tell me all I need to know
In the real world see it's only distance in between
In the real world we should let each other know...
Memories made for a different tune
Beat time only for a moment
Stepping time in a different mood for you
Calling at you there in another world
Saying you can never leave here
But I still have to wait for you...

island

Make yourself an island
Take it out to sea
Get conditions right see the inner light
Give yourself to me!
Wrap yourself in yourself don't let others see
Make yourself an island
Preserve your mystery
Give yourself to me!
Every little teardrop is an ocean at your shore
Every single heartbeat is just me knocking at your door
If you make yourself an island you can never share your life
Take it nice and slow keep the voices low
Cut the silence with your knife
Give yourself to me!
Have yourself a good time don't you hear the call
Take a piece of time to satisfy your mind it's all yours after all
You have made yourself an island and you will not let me land
Made yourself an island I don't understand
Give yourself to me!

song of my heart

A jewel in the sky shining for me and you
A look in your eye tells me we're going to
I've been waiting for so long forgot what I'm waiting for
To sing you the song you can't ignore
The song of my heart
A moment together? It took the whole night long!
No, not forever but the feeling is strong
I've been hiding oh so much it seems like you see right through
The things that you touch don't want you to...
Song of my heart
Song of my heart makes you cry makes you cry makes you cry
What is it with us? Why do we act like this?
I won't make a fuss because it is what it is
I've done nothing to hurt you that can't be rectified
Nothing gets damaged except your pride...
Song of my heart
Song of my heart makes me cry makes me cry makes me cry
Song of my heart...

cafe society

Sometimes I follow the eyes that follow you
Oh and though I'm not so smart I can see right through you
You and your friends are all just the same
The way that you say it's a game it's a game
Maybe the mighty are due for a fall
But the cafe society might know it all
Exclusive, conducive to one and to all
But the twelve strikes have signalled the end of the ball...
Sometimes, sometimes...
Sometimes speaking your mind you convince no one
What is right? What is wrong? How your war was won
Maybe those diamonds aren't quite your best friends
But the cafe society always depends
On trivial, similar second hand trends
And you're dancing around on those dangerous bends
Sometimes, sometimes...
Maybe the mighty are due for a fall
But the cafe society might know it all
Exclusive, conducive to one and to all
But the twelve strikes have signalled the end of the ball...
Sometimes you take me too far I lose sight of you
You and your friends don't know what I'm going through
Sometimes...

trust

I can't even trust myself so how can I trust you?
It's easy to become part of a new crowd
Temptation takes over the voice is so loud
Telling me to stop before I go too far
Telling me to stop remember who you are...
I can't even trust myself so how can I trust you?
I'm needing some reason to keep my head down
The more I'm perceiving the more I'm unwound
Telling me to stop believing all this time
Telling me to stop saying draw the line, draw the line...
I can't even trust myself so how can I trust you?

corridors of power

Crawling down corridors of power no one knows your name
There's a new perspective in a camera's eye but things don't look the same
You feel the change in your reaction life is just a small distraction
Where the small fish fall behind
Do you dream in a troubled sleep?
Finding a place to meet
You can be on your own and you can be just the same...
Godfather deals and word from the top you wonder why
A name on a list of political hits has to die
The trigger is warm the fingers cold
Another Black Cat to steady your hold
And then the law slides up behind...
Do you dream in a troubled sleep?
Finding a place to meet
You can be on your own and you can be just the same...

living upside down

So I sit and I write and I work
And it seems like it's been forever
But it's not gonna be too long
Till you're back and we're both together
Don't you know it's hard for me?
And the days seem to last forever
But it's something that we've got to see through
And it's not gonna be forever...
I need you more than anyone else around
I miss you and I'm living upside down...
So you sleep and you wake and you work
And you think of the day we're together
I feel the same about you
'Cos it feels like it's been forever
And I know it's hard for you
And I know it's cruel to be clever
But it's something that we've got to do
And it's not gonna be forever...
I need you more than anyone else around
I miss you and I'm living upside down, living upside down...
Remember all the little things I told you?
It won't be long before I get to hold you...
I need you more than anyone else around
I need you 'cos I'm living upside down
I need you more than anyone else around
I need you 'cos I'm living upside down, living upside down...

this is for you

Turn me round turn me round take me home
You never care never know never mind
Was that a smile?
You know I can never tell
And like a child well that's all very well
Happy the man who shakes your hand
This is for you this is for you
Happy the man who speaks his mind listen to you
Turn around turn around take me back
You never stop never check never find
Was that a smile?
You know I could never tell
You wait for a while well that's another tale...
Happy the man who shakes your hand
This is for you this is for you
Happy the man who speaks his mind listen to you...
Turn around turn around take me back
You never care never know never mind
Was that a smile?
You know I could never tell and like a child well that's another tale...
Happy the man who shakes your hand
This is for you this is for you
Happy the man who speaks his mind listen to you

i could move a mountain

All those places I've never seen
All those people I've never been
I could move a mountain
I could swim the sea
I could move a mountain
If you were here with me
Those tomorrows that never came
Your opinion well it stayed the same
I could move a mountain
I could swim the sea
I could move a mountain
If you were here with me
I could do anything...

don't go tomorrow

It's quiet now an empty room
We share it with ghosts
No more talk, no more tears
It's in your face it's in your eyes
There's more than space in between you and I
It says so much
I lost you once I lost you twice it only took a minute
And sound advice is hard to find...
Don't go tomorrow just give it a day
I can see through your sorrow you're so far away
So many things have happened to stand in your way
Don't go tomorrow give it a day...
Forget somehow the empty room
And all those tears
We can talk time will heal
I'll touch your face I'll make you smile
Just give me the chance to find out how you feel...
Don't go tomorrow just give it a day
I can see through your sorrow you're so far away
So many things have happened to stand in your way
Don't go tomorrow give it a day...

hello i love you

Hello, I love you won't you tell me your name?
Hello, I love you let me jump in your game
Hello, I love you won't you tell me your name?
Hello, I love you let me jump in your game
She's walking down the street
Blind to every eye she meets
Do you think you'll be the guy to make the queen of the angels sigh?
She holds her head so high
Like a statue in the sky
Her arms are wicked and her legs are long
When she moves my brain screams out this song
Hello! Hello!
Sidewalk crouches at her feet like a dog that begs for something sweet
Do you hope to make her see you fool?
Do you hope to make this dusky jewel?
Hello! Hello!
She holds her head so high
Like a statue in the sky
Her arms are wicked and her legs are long
When she moves my brain screams out this song...
Sidewalk crouches at her feet like a dog that begs for something sweet
Do you hope to make her see you fool?
Do you hope to make this dusky jewel?

rain on the way

Did you cross your heart and hope to die?
Did you make the rules to your nonsense game?
Did you tell your friends about you and I?
I've been telling everyone, did you do the same?
Did you take the car to another home?
Did you stay for a while with another man?
Girl it's only fair that you tell me now before I drown, before I drown...
There is rain on the way
Oo, oo I can hear, I can hear it
Rain on the way
Oo, oo the sound of thunder
You take to cream like a hungry cat
And you don't say no to anything
Your sweet talk sugar song leaves me flat
It's a siren song but that's all you sing...
There is rain on the way
Oo, oo I can hear, I can hear it
Rain on the way
Oo, oo the sound of thunder...

heaven

If I ever needed anything then I, I need it now
If I ever wished for something
It's to find the place you hide your pretty thing and close your eyes!
Heaven! Hey! Heaven!
Sometimes it feels like everything and sometimes... nothing at all
But I remember many things...
Most of all the place you hide your pretty thing under disguise!
Hey! Heaven! Hey! Heaven!
If I ever wished for anything
It's to find the place you hide your pretty thing under disguise!
Hey! Heaven! Hey! Heaven!

different kind of future

Only got to pick up the phone
Only got to call your name
Only got to look in your eyes for me to know you feel the same
Only got to read your letters then I know just what we'll do...
We'll have a different kind of future where we can be
Tuned together in harmony when things are bad in this great big world
We'll fall in love my little girl...
Only have to say the word for me to be right by your side
Only have to say the word and keep your lover satisfied
Only got to hear your message then I know just what we'll do...
We'll have a different kind of future where we can be
Tuned together in harmony when things are bad in this great big world
We'll fall in love...
We'll have a different kind of future where we can be
Tuned together in harmony when things are bad in this great big world
We'll fall...

and my eyes

If you try to get into my heart I might get into you
You know I see everything you say
And baby I hear everything you do
And my eyes see the light
And my eyes see the sun...
Bad stars everyday in my paper
Don't you know that I read between the lines?
And your white flag it says nothing to me
And your picture we've all seen it a thousand times
And my eyes see the light
And my eyes see the sun
No surprise what you do now I know what you've done...
You know that I was always reaching for something else
And baby you got the Summertime Blues
Building that wall between us
And if you tried a little harder then maybe I wouldn't have to choose
And my eyes see the light
And my eyes see the sun
No surprise what you do now I know what you've done...

the razor's edge

We were talking about the old days
And I don't think they were quite that good
The same old stories, the same old lines frozen where we stood
It's been a few years since we last met
But girl, you haven't changed at all
And I, I still feel the same and I'll make it clear
Don't play your games
Don't drag my heart along the razor's edge...
And don't you go away no more
'Cos you've got what I'm looking for...
Fooling around in the darkness
And touching things we could not see
You made your play then you cut oh so deep
And left me here to bleed on the razor's edge...
Don't you go away no more
You've got what I'm looking for...
So don't you go away no more
You've got what I'm looking for...

magazine

Standing here in my correspondent shoes looking for some place to go
Turn the pages of my magazine my imagination starts to flow
I can read about some situations live by proxy for a little while
I can get everything my heart desires every picture in a different style
Magazine features in my fantasy what a life I get to lead in my magazine...
I've an idea the world is just a stage (it's not original but I call it mine)
We are all actors, actors everyone making entrances, learning lines
Magazine features in my fantasy what a life I get to lead in my magazine...

jane

Save me the simple things in life I can remember the good times
Back in the days when to survive meant keeping out of trouble
Keeping out of harm's way, keeping your nose clean...
Give me a reason to decide whether or not to follow
I don't believe in super guys, I ain't no super hero superhero
But if you need one Jane if you're looking for a lover
Call my name no need to look no further
Jane if you're looking for a lover call my name...
Sharing the things we know and love I foresee confrontation
So I'm giving in to my desires
I see the seasons still describe the way that I feel
'Cos I've never been no super guy or super hero superhero
But if you need one Jane if you're looking for a lover
Call my name no need to look no further
Jane if you're looking for a lover call my name Jane...
If you're looking for a lover who do you turn to?
Do you want me? 'Cos I want you
Who do you need?
Jane if you're looking for a lover
Call my name no need to look no further
Jane if you're looking for a lover call my name...

say you love me

When you say you love me can I assume that you mean it?
When you say you love me babe I believe it
Words that freeze upon my lips don't disturb you
Even before the chance to speak
I know you know what I'm thinking
Maybe it's time baby it's time maybe it's time to leave
Is this just imagination or did I just get that look from you?
You won't have to read my mind though
All of my dreams are dreams
Our dreams are coming true
When you say you love me and I believe it
Baby don't go take me in your arms
Maybe you think it's constant danger when I hunger for that feminine touch
And maybe you think my words are strange
But I want you, I want you, I want you, I want you so much

i want you (to want me back)

You were looking for someone to fall in love with have some fun
You thought that our love could last forever
I had nothing more in mind than just to occupy my time
Now I feel your love will leave me never
I remember all too well locked up in some magic spell
Never thought I needed someone else
Then you changed and so did I we no longer saw things eye to eye
Two worlds can drift apart like two can collide...
I want you to want me back I want you to want me back
It may not be the right thing but I'll take my chance
I want you to want me back...
Talking on the telephone to someone that I hardly know
Your love has changed my love has grown
And I can't get you off my mind no matter how hard I try
I think about you all the time do you think about me?
Surely it's not that hard to see...
I want you to want me back I want you to want me back
It may not be the right thing but I'll take my chance
I want you to want me back...
I can't get you off my mind no matter how hard I try
I think about you all the time, I think about you all the time...

new god

The dream machine has broken down
gravy train is leaving town
Everybody wants to catch a ride
Some of us could see the lies
some of us were hypnotized
Everybody standing side by side
waiting in line
The working man with mouths to feed
finds it hard to make ends meet
And everybody's screaming out for more
Bad news on the TV screen
government cuts economy bleeds
And Dow Jones won't be moving in next door
So don't ask me why we scour the sky
Where is the new God? Where is the new God? Where is the new God?
Oh God in heaven!
Traffic speeds a deadly trade
and in a city miles away
The western world is cracking under strain
Superman where are you now? You never seem to be around
And all these problems never go away
Don't ask me why
Where is the new God? (looking for a new God) Where is the new God?
Where is the new God? (looking for a new God)
Oh God in heaven! (looking for a new God)
The act of making love is now taboo
and one night stands are no go
A million or more people on the streets
have no homes to call their own
Half a world away a starving baby cries for the right to live
It's up to politicians but musicians are the ones who give
Don't ask me why we scour the sky
don't ask me why
(Looking for a new God)
Where is the new God? (looking for a new God) Where is the new God?
Where is the new God? (looking for a new God)
Oh God in heaven!

blue

How do you go on?
How do you feel?
Somebody hurt you once again
You could have seen it coming
if you'd opened your eyes
But you threw caution to the wind,
caution to the wind...
Playing with fire living a lie
Some old conversations reveal the truth
They say a little knowledge is a dangerous thing
But you believed it couldn't happen to you...
Now your feet don't touch the ground
And your walls come tumbling down
This feeling that you've found is blue
I don't want to be the one to say I told you so
You don't want to be the last to know
You've got to break out, break out of that shell
Somebody's let you down will you love again? Who can tell?
Now your feet don't touch the ground
And your walls come tumbling down
This feeling that you've found is blue...

hot make up

I was your master your lover your friend
You were the one who said this should end
I loved your body your soul and your mind
You see me only as one of a kind...
You make your excuses to leave me alone
Come back to me wearing the sweetest cologne
We make up, hot make up don't ever slow
Moving together let yourself go...
I'm looking for you reaction sometimes your love is total satisfaction
'Cos I'll say anything, I'll lie to you baby
Hey, hey, hey to get you, yeh
Do anything, tell lies to you baby
Hey, hey, hey to get you into my bed...
Too close for comfort, you're too close to hide
You're breaking my back with you and your pride
Hot make up, let's make up take off our clothes
Move in together let yourself go
I'm looking for you reaction your love is total satisfaction
'Cos I'll say anything, I'll lie to you baby
Hey, hey, hey to get you, yeh

Whatever you need to feel, whatever you want to hear...
'Cos I'll say anything, I'll lie to you baby
Hey, hey, hey to get you, yeh
Do anything, tell lies to you baby
Hey, hey, hey to get you into my bed...

perfect

You went out for blue but you come back grey
Why so serious on a sunny day?
On the air tonight is the new recruit
It's baby Friday's child in the birthday suit
Loosen up...
You go Golden Mile, she go Milky Way
She wore brilliant smile no tooth decay
And she no slap the hand when the fun begin
We hear you're in demand the walls are paper thin
Loosen up...
Perfect!
She can be so perfect...
She is sometimes cool then she's sometimes hot
And she looks so good knows what she's got
Then she says, "I'm so pleased to meet you, sir" and "If you'd be so kind"
But baby, baby, baby I know what's on your mind!
Perfect!
She can be perfect...
When she's doing the things she do
Perfect when there's nothing left to lose
Perfect when she's taking it to the top
Perfect giving it all she's got...

my duty

The belles are on the beach the boys are on parade
The sea slides out of reach she sips her lemonade
I've seen her here before the one who's under age
But she's with a different crowd to the one here yesterday...
She's got the kind of look that gets me every time
She cause the heart to race and the pulse to climb
She knows just what to do to whet my appetite
I wonder if this girl will stay here tonight...
(and she would if she could)
Oh I admire her beauty, oh I wanna do my duty, I gotta do my duty...
Wave after wave our bodies met
Sun on my back I start to sweat
Sea coming in she's getting wet
And she's touching me, touching me, touching me...
And this has got to be as good as it gets...
Oh I admire her beauty, oh I wanna do my duty
Oh she's such a cutie and oh I gotta do my duty, I gotta do my duty...

the apple

Miles separate us still our words connect us
We could never lose each other darling
We could never lose each other now
Send me your features in a picture
Send me your kiss in a letter
Give me the chance to remember give me the chance to remember...
Things we have between us darling let our words connect us
So much between us let our pens protect us
Now that each and every day we're apart
I can feel you here feel you in my heart...
We both bit the apple that ripened on the tree
We both bit the apple of our desire
We both bit the apple that ripened on the tree
We both bit the apple memories all the time remind me...
Miles separate us, words protect us, words connect us, words connect us...
We both bit the apple that ripened on the tree
We both bit the apple of our desire
We both bit the apple that ripened on the tree
We both bit the apple memories all the time remind me...

love assassin

You're closing in on my trail and I can't run, I can't hide
I just freeze like ice when you bring your body down
Your touch too much is all temptation, sensations red...
You are the love assassin, the love assassin danger to my heart
I'm begging you for mercy, begging you for mercy tearing me apart!
You are the love assassin, the love assassin danger to my heart
I'm begging you for mercy, begging you for mercy tearing me apart!
Tearing me apart!
I'm moving into your sights and I can't fight it, can't get away
Get in closer you can't fall down on my luck, down on my knees
Sweat burns, just burns it's all getting worse and it hurts my head, heart, head...
You are the love assassin, the love assassin danger to my heart
I'm begging you for mercy, begging you for mercy tearing me apart!
You are the love assassin, the love assassin danger to my heart
I'm begging you for mercy, begging you for mercy tearing me apart!
Tearing me apart!

now you see me (jazz version)

Standing here in my correspondent shoes I don't need no place to go
Sometimes I feel like making other plans should I stay here? I don't know
I've an idea the world is just a stage (it's not original but I call it mine)
We are all actors, actors everyone, making entrances, learning lines...
Now you see who I care for now you see what I'm here for
Now you see now you see me...
I have built upon this reputation in and out of limousines
It's a glamour life there can be no denying midnight parties such a crazy scene
I can read about my situation live by proxy for a little while
I can get everything my heart desires I can walk the Miracle Mile...
Now you see what I'm here for now you see who I care for
Now you see now you see me...
Now you see what I care for now you see who I'm here for
Now you see now you see me...

everything she said

I heard it from a friend seems she spread the news around
Seems she's been talking and it's all over town
Everybody knows just what's been going on
Now I've nowhere left to hide nowhere left to run...
She can't pretend that it was ever bad
And I can't say she's the best I've ever had
But you got to tell me you got to tell me, you got to tell me
Everything she said...
Don't spare me any details, don't try to hide the truth
I've had enough deceit and I don't need that from you
So don't give me 'words words words to that effect...'
I need to know exactly what she said...
But you got to tell me, you got to tell me, you got to tell me
Everything she said...
I've been in the dark too long...
If she's been talking I need to know the truth
Your loyal silence ain't no excuse, ain't no excuse...
You got to tell me, you got to tell me, you got to tell me
Everything she said...

what love can do

Take all your time spend all your money
Never giving nothing back to you
Waste all your days not very funny
Just goes to show what love can do...
Burning in your heart pain in your head
Is she feeling something like it too?
Is it what she said? Is it what she did?
Just goes to show what love can do...
What love can do, what love can do
Just goes to show what love can do
What love can do, what love can do
Just goes to show what love can do
Sparkle in her eyes has long since died
Now you're thinking no this can't be true
So you wrote a song so you can't be wrong
Just goes to show what love can do...
What love can do, what love can do
Just goes to show what love can do
What love can do, what love can do
Just goes to show what love can do...

lost for words

You know you can cry you've done it many times before
It's all in your mind Christ knows it's not against the law
But if you only knew what I think of you
I'd tell you something that you've never heard...
Whenever we're apart and I don't know what's going through your head
Or what is in your heart or what you feel because you've never said
You know you can cry I've seen your tears before and cruel to be kind
Well Christ knows it's not against the law
But if you only knew what I think of you
I'd tell you something that you've never heard...
But I'm lost for words, I'm lost for words...
I don't mean to lie but I've never felt this way before
Well maybe once or twice but I just can't say, I just can't say, I just can't say...
I'm lost for words, I'm lost for words, I'm lost for words...

tomorrow

I'm changing those ideas I had when I was young
Losing my grip on the past
Fighting my way through the speed of the day
The futures upon us so fast...
Tomorrow I'm going to be older
Tomorrow is one day away...
The songs that we sung have remained with us still
They never grow old as we do
Our link with the past is fading so fast
But everything still sounds like you...
Tomorrow is going to be colder
Tomorrow is one day away
Tomorrow I'm going to be older
I wish we could have yesterday...
The anthems of youth of peace, love and truth
Those songs moved a million hearts
We'd copy the stars and play our guitars
And knew every word in the charts...
Tomorrow is going to be colder
Tomorrow is one day away
Tomorrow I'm going to be older
I wish we could have yesterday...

i'm losing you

After all that we've been through
Now I feel I'm losing you
Remember times when we've been down
Didn't something always come around?
This is hard for me to take
Wonder if I'm still awake
Will I find it's all been a dream?
Tell me what it's supposed to mean...
Can't you feel, feel, feel
Can't you feel the way I do?
I'm losing you...
Sometimes things that look so bad
Often turn out not so sad
Did you have to make me cry?
Did we have to say goodbye?
Can't you feel, feel, feel
Can't you feel the way I do?
I'm losing you...

nothing is quite what it seems

Celebrate our big mistake
All the while I'm fearing that you'd never smile
Hesitate been left too late
Harmonise sing until you touch the skies...
You wonder what tomorrow will mean
Is your mind like an empty screen?
Can you hold on to all your dreams?
You know that nothing is quite what it seems...
Take a chance the big romance
Never mind, just tell me what you hoped to find
Play the game or stay the same
When conversation leads to better relations
You can't believe what you're hearing is true
There is always another you
So just hang on to all your dreams
You know that nothing is quite what it seems...

i can dance for you

I can be your toy oh anytime you need one
I can be the boy oh anytime you need one
I can dance for you...
Then I'll be the clown anytime you need to laugh babe I'll be around
I've got the key to your heart all your letters and your photograph
I may not be Astaire but I can dance for you
I may not be Astaire but I can dance for you...
I can be your man you could add me to your collection
I'll see you when I can and in the meantime just point me in your direction
I may not be Astaire but I can dance for you
I may not be Astaire but I can dance for you...

back to back

Your face is like a winter's day
Cold hands that push me away
Your eyes never saw the other me
I tried but it had to be...
You've got a silver bullet smile
Are you gonna shoot me dead?
When we talk we leave things unsaid
And we're living like strangers, living like strangers...
And I'm on the rack now we're back to back...
When she smiles I find it hard to tell her no
I try but I can't say no
Your heart is like a cold stone wall
I shouldn't be here at all
'Cos we're living like strangers, living like strangers...
And I'm on the rack now we're back to back...
Yes I'm off the tracks now we're back to back...
And I'm on the rack now we're back to back...
And I'm off the tracks now we're back to back...
(And we're living like strangers) we're back to back...

we're still in the dark

A reflection in the water dark and deep
In the background what secrets do we keep?
We had the time of our lives you and me
What we missed we still don't see...
You know it got too much to understand
We were so different after all
We had the time of our lives didn't we?
But I feel we still don't see...
We're still in the dark, we're still in the dark, we're still in the dark...
Looking back there at the memories of me and you
I can still recall the things that we used to do
We had the time of our lives didn't we?
But I feel we still don't see...
We're still in the dark, we're still in the dark, we're still in the dark...

ordinary people

No Superman
No Charlie Chan
No Hollywood
No beauty queen
There has to be something for everyone...
No strong advice
No cool as ice
No remedies
No hearts of gold
That can be sold for nothing to anyone...
What am I?
And who are you?
Ordinary people living ordinary lives
Ordinary people looking through ordinary eyes...
No fox to chase
No master race
No criminals
No A to Z
There has to be something for everyone...
No plaster saint
No act of faith
No Galahad
No cavalier
But being here
Means something to everyone...
What am I?
And who are you?
Ordinary people living ordinary lives
Ordinary people looking through ordinary eyes...

and i said yes

I've been living in a void thinking that she might call
Now the green turns gold on the street so I forget it all
I've been thinking it out again and again
All the things that I said that I can't explain
If I gave away the secret I confess
Is that what you needed?
Say it's so and I said yes, and I said yes...
I've been watching the world through a silver frame
With a ticket to another game
I've been holding it back now I'm speaking my mind
Take the first flight home
But I never leave ground 'cos I'm never in time...
If I gave away the secret I confess
Is that what you needed?
Say it's so and I said yes, and I said yes...
If I gave away the secret I confess
Is that what you needed?
And I said yes
If I gave away the secret, oo I confess
Is that what you needed?
Say it's so and I said yes, and I said yes...

big drum

Dad says 'I don't mind you playing records so late at night,
I just hope the neighbours think the same!'
And mum says, 'I don't know why they have to be so loud,
You know it's me who'll get the blame'
She's shaking the angry fist, heavy the waiting list
Here comes the stylus kiss, here comes the Big Drum...
Sis is just like me she likes the bass turned way up high
And the treble going pop 'til it hurts your ears
She can dance she can go at it all night long
Until her daytime reappears!
All night burning wax picking the loudest tracks
She fingers the silver sax and handles the Big Drum...
Big Drum!

reason

Tired and running scared in case we falter or we go too far
Given half a chance I'd turn away but I know what you are
Taking everything I have for yours now I feel like I've been through a war
'This is the last time I'll be here.' I said but I'm at your door
Only to say the words because I know what you're looking for
Making believe everything is true as if I'm not confused enough by you...
Whatever happens to reason, whatever happens to rhyme?
Whatever happens to reason, whatever happens to...
Sitting alone and talking to myself I stay up half the night
Many's the time I wondered should I have given up the fight?
Then I wonder if I'm on your mind
Or is it a fool who says love is blind?
Oh I can't let you go oh I can't let know
Oh I can't let you go oh I can't let know...
Whatever happens to reason, whatever happens to rhyme?
Whatever happens to reason, whatever happens to rhyme?
To rhyme, to rhyme, to rhyme...

dance

Dance in the falling rain
Dance in the moonlight
Dance round the fire barefoot in the sand
Dance at the ball (but get home before midnight!)
Dance in the dark with a torch in your hand...
Dance in the street if the music takes you
Dance on your own if the time is right
Dance with a friend if a friend can help you
Dance in the park just you and I...
Dance! Dance!
Dance in a circle
Dance in a long line
Dance on ice barefoot in the snow
Dance the waltz
Dance 4/4 time
It's a feeling it's a Go-Go!
Dance! Dance! Dance! Dance!
I can hear bells I can hear music
I can see eyes that stare and stare
I'm feeling nervous you know why?
I don't belong here, I don't care!
Dance! Dance! Dance! Dance! Dance! Dance!

the business of dreams

My expert says 'There is gold somewhere, if you bother to look you can find it
But you gotta dig deep into the veins there ain't no way around it
If you've got half a mind, there's one or two things you could try
Don't be afraid to go straight for the kill
And don't be ashamed to look 'em in the eyes'
Then he says 'There are three things in this life you'd be well advised to avoid
One is a man with money on his mind and two is the promise in his word
And three is a woman with jealousy raging in her eyes'
We were so full of hope, so full of promise and so full of life...
He said 'Don't look back, face facts, this is the business of dreams
Don't look back, face facts, 'cos this is the business of dreams'
Sometimes it seems like 'Oliver' –always hungry for more
Three men at sea in a little boat who can't find their way back to shore
He said 'You keep doing what you do hold out for what you believe!'
We were so full of faith, so full of hope and so full of charity...
He said 'Don't look back, face facts, this is the business of dreams
Don't look back, face facts, this is the business of dreams'

love school

How could I be so dumb? How could you be so wise?
How quickly you could see through my disguise, my thin disguise
But I've never met someone with your style and your class
Forgive me if I was the fool coming on too fast
I've made mistakes in the past so show me the right way...
Take me back to love school, teach me A to Z
I thought I knew all the answers but the fool is me
Take me back to love school, I'll learn my lessons well...
You are the perfect one you can tutor me
The art of making love will be my first degree (education is the key)
I know I'll understand when you hold me tight
I'll be your teacher's pet...can we start tonight?
I'll never be the same after you show me the right way...
Take me back to love school, teach me A to Z
I thought I knew all the answers but the fool is me
Take me back to love school, I'll learn my lessons well...
(If you can't dance to this, you can't dance)
Take me back to love school, teach me A to Z
I thought I knew all the answers but the fool is me...

the apple

You send me your features in a picture
You send me your kiss in a letter
I want love to last forever
So give me a night to remember...
Close enough to touch the passion burning up inside us
We know just what to do don't need no stars to guide us
Things we have between us darling flesh and blood together
The first and most original sin goes on and on forever
We both bit the apple that ripened on a tree
We both bit the apple of our desire
We both bit the apple tastes so good to me
We both bit the apple only you can satisfy me...
With you here beside me I don't need no other lover
Once is not enough for me with you under cover
Caught in the rhythm of this long night together
The first and most original sin goes on and on forever...
We both bit the apple that ripened on a tree
We both bit the apple only you can satisfy me...
You and me, Adam and Eve, underneath the apple tree
The fruit's there for the taking
In our hearts all we know love is what we're making
We both bit the apple that ripened on a tree
We both bit the apple of our desire
We both bit the apple tastes so good to me
We both bit the apple only you can satisfy me...

hungry years

She is tired of living with no money in her hand
The world is spinning but she don't understand
She wants to live forever and love the life she leads
No one said it would be easy these are the hungry years
These are the hungry years...
She is kind and pretty has plenty more to give
And it's all such a pity she finds it hard to live
She wants to live forever and love the life she leads
No one said it would be easy these are the hungry years
These are the hungry years...
I would like to help her out in her hour of need
Oh but she just wants to live her life
Live her life, live her life and be free...
These are the hungry years...

wild heart

Some do everything in their power to build foundations of love
Some fools shake it all to the ground and if that isn't enough
They try to savage your heart, you try to make a new start
But what are you gonna do?
Don't let the fools get to you sowing the seeds of destruction
When every famous face you see reminds of what you want to be...
You got to go where destiny leads and follow your wild heart
Make your dreams succeed and follow your wild heart...
Some fools hang on to what they need to find it isn't enough
Some people follow their own beliefs when push comes to shove
Some guys are never afraid no going back on decisions they made
So here's what you got to do you pay the piper to call the tune
And don't be alarmed by seduction
When every famous face you see reminds of what you want to be...
You got to go where destiny leads and follow your wild heart
Make your dreams succeed and follow your wild heart...

all i need is you

Standing here in my correspondent shoes I don't need no place to go
Sometimes I feel like making other plans should I stay here? I don't know
I've an idea the world is just a stage (it's not original but I call it mine)
We are all actors, actors everyone, making entrances, learning lines...
All I want is to feel alive
All I need is to be satisfied
All I want, all I want, all I need is you...
I have built upon this reputation lived by proxy for a little while
It's a glamour life there can be no denying when you're walking the Miracle Mile...
All I want is to feel alive
All I need is to be satisfied
All I want, all I want, all I need is you...
Standing here in my correspondent shoes I don't need no place to go
Sometimes I feel like making other plans should I stay here? I don't know...
All I want is to feel alive
All I need is to be satisfied
All I want, all I want, all I need is you...

the hardest thing

Don't let your heart talk
Don't let your anger rule your tongue
Let your heart ache and don't be afraid
So many broken words are trying to be heard
(Don't let your heart talk) and don't let your anger rule your tongue...
Let your guard down
Stop trying to fight against yourself
If your heart aches don't be afraid
Don't give your empty words a vehicle to be heard...
It's the hardest thing when you give so much and get back nothing at all
It's the hardest thing, the hardest thing...
Don't let your heart talk
Something you say you might regret tomorrow
So don't be a fool
I know your angry words are dying to be heard
(Don't let your heart talk) and don't let your anger rule your tongue...
It's the hardest thing when you give so much and get back nothing at all
It's the hardest thing, the hardest thing...
Don't let your heart talk...

i will

I will find somebody sooner or later
I will find somebody sooner or later
She won't look like anybody else
She won't talk like everybody else
She won't dress like
She won't kiss like
She won't live like everybody else...
Once in a while maybe once in a lifetime
We all meet somebody and find somebody to love...
And I will find somebody sooner or later
I will find somebody sooner or later...
She won't flirt like other girls do
Break your heart like other girls do
She won't hurt you like
She won't tease like
She won't, like other girls do
Once in a while maybe once in a lifetime
We all meet somebody and find somebody to love...
And I will find somebody sooner or later
I will find somebody sooner or later...

heartbeat faster

I used to wonder how it felt to be in love 'til I met you
Then suddenly I came to realise that everything they said was true
You fill my life with laughter lonely days are a thing of the past
Now and for ever after this feeling is surely gonna last...
You make my heart beat faster, you set my soul on fire
You make my heart beat faster and your kisses takes me high...
Now every day is a new day it's exciting when you're around
It's love that makes me feel this way it's love that turns me upside down
And fills my life with laughter lonely days are a thing of the past
Now and for ever after this feeling is surely gonna last...
You make my heart beat faster, you set my soul on fire
You make my heart beat faster and your kisses takes me high
Higher and higher, yeh, yeh, yeh, higher and higher...
You fill my life with laughter lonely days are a thing of the past
Now and for ever after this feeling is surely gonna last...
You make my heart beat faster, you set my soul on fire
You make my heart beat faster as for your kisses...

laughter now

A drive-in where the features play all night
I was hiding from the glow of neon lights
Billboards and stoplights dancing in my brain
They say people this is progress but to me it's all the same
Where you once said you belonged to me, out where the Pony Ring used to be
Ah but man this is the twenty first century...
Come a little closer put one ear to the ground
You gotta listen hard to hear the laughter now
It's getting tougher just to be around, gotta listen hard to hear the laughter now
Storeys replace the stories I could tell
A heart full of memories of the places I knew well
And we were talking today about the neighbourhood, the people and cars
And Louie said, 'Things ain't what they used to be' and I thought how true that was...
And it's no use you ignoring it
They're telling you the cap will fit, you just better get used, get used to wearing it...
Come a little closer put one ear to the ground
You gotta listen hard to hear the laughter now
It's getting tougher just to be around gotta listen hard to hear the laughter now
Come a little closer put one ear to the ground
You gotta listen hard to hear the laughter now
Better fax your guru when the whip comes down
You gotta listen hard to hear the laughter now...
Come a little closer put one ear to the ground
Mmm what's that sound?
You gotta listen hard to hear the laughter now...

i'll say yes

Don't get up, don't get dressed baby why d'you wanna go home?
After such a wicked time why can't you leave a tender moment alone?
You don't seem to realise the pain that you put me through
Haven't I made myself clear?
There's nothing that I wouldn't do for you...
Ask me if I love you Ask me if I care
Ask me do I want you? I'll say yes!
Don't switch on those ugly lights I like it better here in the dark
A little horizontal exercise is better than a jog in the park
My oh my doesn't time fly? Especially when you're having fun
So baby please don't say goodnight, no baby please don't say good night...
Ask me if I love you Ask me if I care Ask me do I want you? I'll say yes!
Ask me do I want you Ask me do I care
Ask me do I love you You know what I'll say...
I'll say yes!

take care of yourself

You said when you walked out the door you would never ever come back
Now it's so confusing and I feel like I'm losing all the good things that I had
Here you are with that look in your eye you say that you want to come home
But I've had enough of your indecision and I'm getting used to being alone...
You gotta take care of yourself now baby 'cos you ain't gonna take care of me
You gotta take care of yourself now baby 'cos you ain't gonna take care of me...
I don't think we were really in love but love is such a curious thing
And it's kind of strange now you're in danger of finding out what it means
Here you are with that look on your face that says you want to come back
But I've had enough of your indecision so you might as well face the fact...
You gotta take care of yourself now baby 'cos you ain't gonna take care of me
You gotta take care of yourself now baby 'cos you ain't gonna take care of me...

love assassin

You're closing in on my trail and I can't run, I can't hide
I just freeze like ice when you bring your body down
Your touch too much is all sensation, temptation's read...
And oh, I don't want to fight said oh I'll be your victim tonight...
You are the love assassin, the love assassin danger to my heart
I'm begging you for mercy, begging you for mercy tearing me apart!
You are the love assassin, the love assassin danger to my heart
I'm begging you for mercy, begging you for mercy tearing me apart!
I'm moving into your sights and I can't fight it, can't get away
Get in closer you can't fail, down on my luck, down on my knees
Sweat burns, just burns it's all getting worse and it hurts my head, heart, head...
Oh, I don't want to fight oh I'll be your victim tonight...
'Cos you are the love assassin, the love assassin danger to my heart
I'm begging you for mercy, begging you for mercy tearing me apart!
You are the love assassin, the love assassin danger to my heart
I'm begging you for mercy, begging you for mercy tearing me apart!
Oh something ain't right, oh you got me in your sights...
Yeh, don't wanna fight, my little baby yeh
I'll surrender, I'll surrender tonight...
'Cos you are the love assassin, the love assassin danger to my heart
I'm begging you for mercy, begging you for mercy tearing me apart!
(I can feel it everywhere, I can feel it in the air)
Danger!

everything she said

I heard it from a friend seems she spread the news around
Seems she's talking yeh she's been talking and it's all over town
Everybody knows just what's been going on.
Everybody knows just what's been going on
And I've nowhere left to hide and I've nowhere left to run
You got to tell me, you got to tell me, you got to tell me
Everything she said...
Give me the details I wanna know the truth
I've had enough deceit yeh and I don't need that from you
Don't give me 'words words words to that effect...'
I need to know exactly what she said...
You got to tell me, you got to tell me, you got to tell me
Everything she said...
Oh I wanna know everything, oh oh oh I wanna know everything
I've been in the dark too long...
Everybody knows...
You got to tell me, you got to tell me, you got to tell me
Everything she said...

don't ask me why

The dream machine has broken down
The gravy train is leaving town
And everybody wants to catch a ride
Some of us could see the lies
Some of us were hypnotised
Everybody standing side by side waiting in line...
The working man with mouths to feed
Finds it hard to make ends meet
And everybody's screaming out for more
Bad news on the TV screen
Government cuts economy bleeds
And Dow Jones won't be moving in next door
So don't ask me why we scour the sky...
Don't ask me why, don't ask me why
Oh no no no don't ask me why...
If we all believe in the power of love
How come we've so often misunderstood?
Don't ask me why, don't ask me why
Oh no no no don't ask me why...
The act of making love is now taboo and one-night stands are no-go
A million or more people on the streets have no homes to call their own
Half a world away a starving baby cries for the right to live
What sort of fool believes it's better to receive than to give?
What sort of fool believes it's better to receive than to give?
Don't ask me why, don't ask me why
Oh no no no don't ask me why...

the apple

Close enough to touch the passion burning up inside us
We know just what to do don't need no stars to guide us
Things we have between us darling flesh and blood together
The first and most original sin goes on and on forever...
We both bit the apple (tastes so go to me)
We both bit the apple (that ripened on a tree)
We both bit the apple (tastes so go to me)
We both bit the apple (only you can satisfy me)
With you here beside me I don't need no other lover
Once is not enough for me with you under cover
Caught in the rhythm of this long night together
The first and most original sin goes on and on forever

We both bit the apple...

stay with me baby

(C'est parce que je t'aime que je reste avec toi...)

And you listen with a sympathetic ear

And when you run your fingers through my hair

The worries of the world seem to disappear

And I know you'll always be around

You keep my head above the water and my feet on the ground...

And you stay with me baby, stay with me baby, stay with me baby...

Sometimes I cause you tears and make your laughter drown

Then I look into your eyes and I realise I'm such a clown

And it isn't far from the truth to say I owe it all to you

For being there when I needed you...

And you stay with me baby, stay with me baby, stay with me baby

Yeah you stay with me baby, stay with me baby, stay with me baby...

Take all my love to call your own that's all I'm trying to say

Take all my love to call your own, yeh and stay ...

Stay with me baby, stay with me baby...

Yeah you stay with me baby, stay with me baby, stay with me baby...

And you stay with me baby, stay with me baby, stay with me baby...
